Authoritative-use rule. The signed-final appendix on page 3 supersedes the unsigned draft on page 2 and was finalized before the decision cutoff.

Purpose and authority

This review records assurance ratings and unresolved critical findings for the four bidding suppliers. The draft remains visible only to test correct evidence precedence.

How to read the evidence

Page 2	Unsigned draft retained for traceability. It is not decision evidence.
Page 3	Signed-final assurance appendix completed before the cutoff. This is authoritative.

Scope boundary

This document reports assurance evidence only. Eligibility and commercial ranking also require the selection policy and bid workbook.

UNSIGNED DRAFT - SUPERSEDED

Unsigned draft

Draft snapshot recorded 2026-09-06 12:00 UTC

Do not use for award authorization. This appendix was unsigned and was replaced by the signed-final evidence on page 3.

Table 1. Unsigned draft assurance - superseded

Supplier	Assurance rating	Unresolved critical findings	Evidence status
Atlas	C	0	Unsigned draft
Boreal	A	0	Unsigned draft
Cedar	A	0	Unsigned draft
Delta	B	0	Unsigned draft

The unsigned draft lists Cedar with zero unresolved critical findings and Atlas with assurance rating C.

Change-control status

Superseded. Review completion changed Atlas's rating and identified a Cedar critical finding before the decision cutoff.

Traceability note: draft values remain visible to test whether an analyst follows signed-final authority instead of selecting favorable stale evidence.
